

Spring
Practicum
2023
Dayton Merry

Workplace Name *Lyons Landscaping*

Location: 1271B Salish Rd,
Kamloops, BC V2H 6H3

How I got to work each day: by
biking

My hours of work: 6

Dress code: Casual with a Lyons
hat or shirt

What did you learn about your workplace?

- The work gets more intense as it gets warmer
- Physical conditioning is required

People that I worked with

- ***Supervisor/ Manager***
- Cathy
- Amber
- ***Co-workers***
- Peter
- Mark
- ***Crew members***
- Rebecca

The skills employees in this workplace employees need to have:

- An understanding of horticulture and landscaping.

The skills I developed while on practicum are...

- More consistent way to landscape
- Work smarter not harder
- Finding more work to do on slow days

I excelled at:

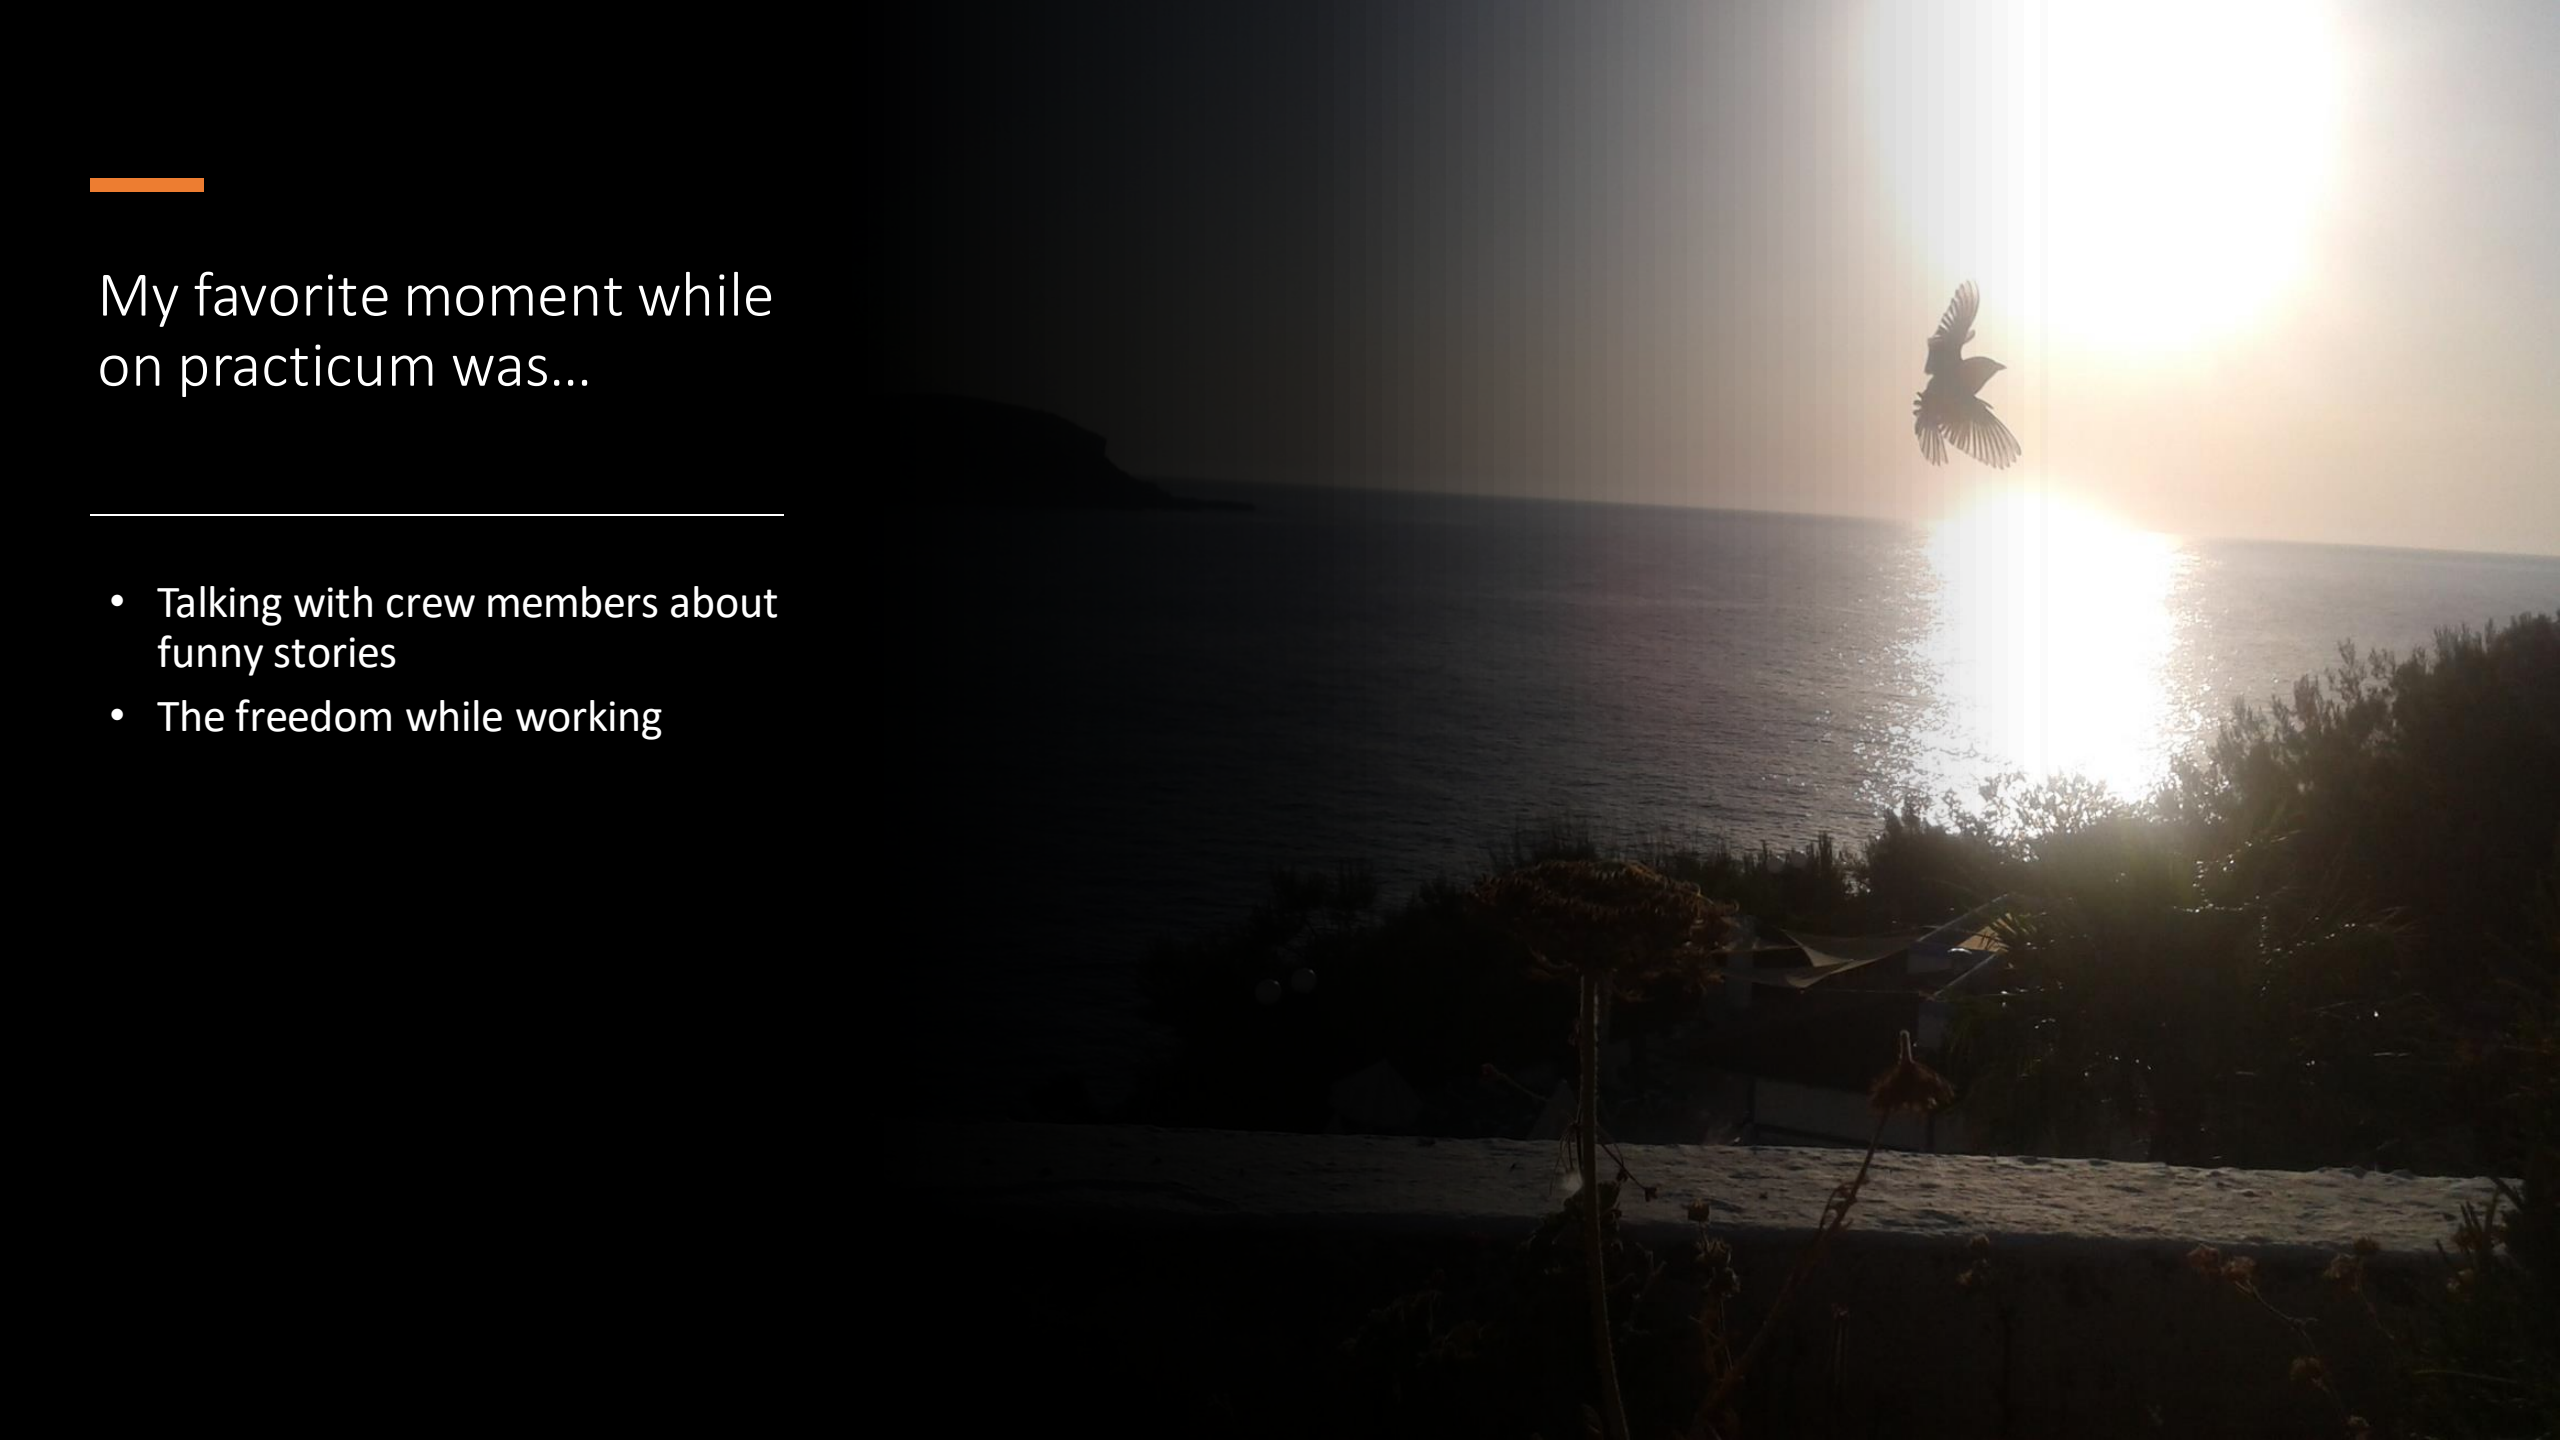

- Working as a team
- Showing initiative by doing little things that need to be done

Challenges at the workplace

- Unloading trucks full of trees and plants
- Lack of work some days and trying to find something to do

The background of the slide is a photograph of a sunset over the ocean. The sun is a bright, glowing orb on the right side, casting a long, shimmering reflection across the water. A bird is captured in mid-flight, its wings spread, silhouetted against the bright light of the sun. The foreground is dark, showing the silhouettes of some coastal plants and a low wall or ledge. On the left side, there is a small orange horizontal bar above the text.

My favorite moment while
on practicum was...

-
- Talking with crew members about funny stories
 - The freedom while working

Thank you!

Would you recommend this workplace for other students?

I would highly recommend this business as a practicum location the work is enjoyable and the people that you will be working with are respectable and take you in as another employee.

Anything else about your experience that you would like to share?

I usually got to listen to music to make the day go by faster.
